Letter from the Director

Suzanne Dionne | director@centralcoop.org

The last month of preschool is bittersweet. We are so proud of the accomplishments of each and every child ~ they have experienced so many wonderful things this year ~ knowledge that they will carry with them for a lifetime ~ friends that will guide them through the next steps of their journey ~ and a forever family of devoted parents and teachers.

Although we are sad to see our graduates go, we know that they have the tools they need to begin building the bridge to their future. As these children move forward, so do their families ~ our families that have helped our school succeed above and beyond what we thought possible. Please know that as you embark on the next chapter of your lives that you have made your mark at the Co-Op that will remain forever. We will never be able to express our gratitude for your trust and friendship.

I would like to say a very special thank you and farewell to Lela Horriucchi, Ashley Fisher and Ashleigh Whitehouse, thank you for all of your years at the Co-Op, all of your help navigating through the pandemic, your support at meetings and checking in and behind the scenes. You will be missed!!

Thank you Shannon Lee, Colleen Theodoros, Christina Cote, Jed Palmer, thank you for staying on with us and we are looking forward to another great year. Without your hard work and creativity our school would not be as fabulous as it is today! Thank you so much!

A HUGE Thank you to the teachers and Mrs. LeMasurier for their tireless dedication to the children and the school. We are beyond blessed to have such passionate educators who are willing to go above and beyond every single day to be sure that the needs of each and every child is met. Egg Hatching Time!

Coming up in May we are doing a Life Cycle unit in the creative room. We will talk about the life cycle of several creatures and even plants! We have chicken eggs going into the incubator in late April. Tadpoles are arriving soon as well as ladybugs, ants and caterpillars!

Learning about life cycles is a great way to create excitement and a love of nature. The ability to have real life animals and creatures to teach this unit is an amazing experience for the students and teachers. Keep a watch out for updates.!

THANK
YOU!

We have a few new members to the Board of Directors for
